Rapaport Fair Trade

Rapaport Fair Trade is an ongoing multi-decade effort by the Rapaport Group to promote an ethical diamond and jewelry trade. Activities include an annual Fair Trade conference at the JCK – Las Vegas Jewelry Show, lectures and presentations, articles and reports warning the trade about unethical practices, an ethical jewelry pledge campaign

and the Rapaport Fair Trade website.

The Rapaport Group is developing a Rapaport Ethical Diamond Certification program that will track the production of diamonds from rough mining companies through to gemological grading reports that fully identify specific diamonds. Rapaport will then issue a certificate attesting to the ethical sourcing and production of the specific diamond. Rapaport ethical certification will be limited to specific diamonds and will not certify any company.

Rapaport Fair Trade conferences highlight ethical trends and human rights issues affecting the diamond trade. They provide practical tips to help retailers and their suppliers improve their social awareness and attract a new wave of socially-conscious consumers.
